Ex-Mayor Z. V. This which had just put in a spiendid street car and electric service for the city. This protest was unavailing. His next objection to allowing this company the right to do a local passenger business was also overruled. He was more successful on his fight on a blanket franchise, securing an amendment whereby the paralleling the home track was prohibited, and resticting the new line to a certain route. The vote in favor of franchise was 6 to 1.

A franchise for this road has already been obtained at High Point, and the purpose of the company now is to fecure one at Winston-Salem, thus connecting these three important manufacturing centers, giving freight competition with the Southern and the Norfolk and Western Railroads at Win-on-Salem, and at Greensboro with the Southern and Seaboard Air Line, soon to have connection
